Are you a parent worried about not being able to get instant information as to where your kid is, once he / she boards the school/college bus while going or coming back home?

The school/college management are puzzled many times regarding the location of the school bus, students' daily arrivals and departures until the bus reaches school or college safely.

Furthermore, the driver of the school/college bus had to call the parents while in transit informing them to be ready at their designated bus stops, both while picking up the kids and dropping them off after school/college.

Here we come with the Unique and Single Smart Solution for all the above problems pushing them into thin air, the moment you start using our app. Excited?? Yes, it's true.

Assured peace of mind to every parent, school/college admin and also for a driver. Want to know about it? Yes, it's ParentLook App.

## PARENTLOOK

ParentLook is an innovative, automated, robust and customizable student safety Mobile App, offered by Akshara Information Technologies, designed and developed through state-of-the-art application development process, based on practical inputs and requirements collected from all the three users -schools/colleges, parents, as well as bus drivers.

## PARENT APP

App for parents that provides real-time tracking, attendance & video surveillance of school/college bus, driver and vehicle information with notifications when their child boards the school/college bus while going or coming back home.

Real-Time tracking

Children attendance reports on a daily, weekly and monthly basis, while boarding or de-boarding the School/College Bus

Live Video Surveillance

Real-time alerts of all types.

Single sign-in for multiple children of same or different school/college.

## TRANSPORT MANAGER CONSOLE

Web Console that provides the Transport Manager with complete data and analytics regarding the whereabouts of entire fleet, students & drivers on single sign-in screen.

Single sign-in web console, enabling ease of fleet management

Integrated Dashboard System

Auto generates various reports of all buses, students & drivers

Real-time tracking of all buses at a time

Live video surveillance of all buses while commuting

Provides various alerts on bus routes, students movement & driver's driving

Manage fuel and maintenance cost

Ensuring Student Safety and Security

## DRIVER APP

Mobile App, installed in buses that helps the driver ensure that the bus ply as per the scheduled time, keeps the parents informed about whereabouts or updates in case of any change in the timings, delays or breakdowns. It helps drivers focus on their driving, non-violation of traffic rules and reaching their end points timely and safely.
